Herculiner spray can instructions diagram printable version pdf

Completely satisfied and highly recommended for any use, you won't be disappointed. When cured, Herculiner provides a tough, durable skid-resistant protective coating that won't chip, flake, or peel and prevents rust. Scuff all paint surfaces where Herculiner is to be applied, leaving no glossy areas. Wipe down the surface with Xylene (Xylol), Acetone or MEK solution, and a rag. This acts as a "primer" for your second coat. OUR #1 ROLL-ON BED LINER IS 2X Thicker Than Other Roll-On Liners 2 Hr Dry Time Full Cure in 24 Hours PLAY TO SEE HERCULINER PROTECTION PUT TO THE TEST Herculiner is the only polyurethane and rubber granule coating that is applied in just 3 easy steps to your truck bed using rollers and a brush (included in the kit). Apply a light first coat. After you apply the second coat, make sure to let cure for at least 24 hours before light use and 3-5 days before heavy use. Stir Herculiner thoroughly before using and while you are working. 2X THICKERTHAN OTHER ROLL-ONS RESISTANTTO GASOLINE, OIL, SOLVENTS AND CHEMICALS Clean heavy dirt and grime from surface and mask off all areas to be painted. Herculiner dries to the touch in 2 hours and is fully cured in 24 hours. This helps keeps the rubber particles suspended and assures an even application. After the first coat has been applied, allow Herculiner to set up (approximately 1-4 hours or when it is no longer tacky). When cured, Herculiner provides a tough, durable skid-resistant protective coating. Top reviews Most recent Top reviews Top reviews from the United States Top positive reviewAll positive reviews< Hek5.0 out of 5 starsThe black mass !Reviewed in the United States on December 16, 2020It completely changed the view on my truck, it was all chrome and I always wanted to change it all to black. I wanted those nice bumpers they sale but that's around 2k or more, I started with the grill as a test to see how it will end and I finished the whole truck in black, so no more chrome and it looks completely awesome after one year of applying the material,the thickness is perfect and the adhesion to the surface still perfectly seen like the first day,is really easy to work with and once you done you will see a complete change to your truck or whatever it is that you are working on.
